

GMAWiP

## Women and Gender Minorities in Physics

Our goals are to provide both professional development and support for women and gender minorities in physics at every step in their careers by taking concrete actions through the following methods: Fellowship, Mentorship, Professional Development and Outreach.

Our group is open to anyone at any level in academia who identifies as a woman, gender minority (such as people who are transgender or nonbinary), or ally of women and gender minorities in physics. Our meetings have been made up of grads, undergrads, postdocs, research scientists, and faculty. Examples of our events are listed below.

### Fellowship

- Monthly social events
- S'mores at picnic point
- Bowling
- Movie nights

### Mentorship

- Undergraduate mentorship program
- Personal essay and application workshops
- Resources for incoming graduate students

### Professional Development

- Women and gender minorities journal club
- Series of panels on applying to graduate school for undergraduates
- APS Communications and Negotiation Skills Seminar for Women

### Outreach

- Expanding Your Horizons
- Physics Fair booth
- WISELI: "Eliminating Unconscious Bias" Workshop
- Science fair participation
- Girl scouts' Inspire STEM

**Kickoff Event: Thursday 9/20 at 4pm, Chamberlin 5290**
